Core CAHPS Questions

Composite and Questions

Getting Care without Long Waits

This chart summarizes the responses to survey questions 15, 17, 20, and 26 contained in the composite, "Getting Care without Long Waits." Individual question-level responses are also below.

Composite

Q15. "In the last 6 months, when you called during regular office hours, how often did you get the help or advice you needed for your child?"

Q17. "In the last 6 months, how often did your child get an appointment for regular or routine health care as soon as you wanted?"

Q20. "In the last 6 months, when your child needed care right away for an illness or injury, how often did your child get care as soon as you wanted?"

Q26. "In the last 6 months, how often did your child wait in the doctor's office or clinic more than 15 minutes past the appointment time to see the person your child went to see?"

NOTE: Results presented in this report are based on the 2001 "Survey About Your Child's Health Care" CAHPS survey sponsored by the Washington State Medical Assistance Administration. To guard against inappropriate interpretation, scores are not displayed when there are fewer than 85 responses for a single survey item. The bar graphs show unadjusted proportions for each response category. Stars are not presented because there is no comparison group. Due to rounding, some bars may not add up to 100%. Request "Detailed Methodology" for additional information.
